Subject: 2nd Half 1997 Wholesale Partners Progra

To All RBM's,

The national average performance rate for Direct Accounts participating in the 2nd Half 1997 Wholesale Partners Program INCREASED this week from $.17 to $.18 per carton. This is approximated 2.5 cents more than initially anticipated based on the previous program performance. Part of the overall increase may be contributed to WINSTON brand contributions. The most recent $.01 increase appears to be credited to DORAL share of market increases within the parameters of our Program .

In September I provided each of you with a report created in "Analyzer" that listed all Direct Accounts by Division that were tracking at (+) $.20 per carton. This report was to be used to assist you in managing the Wholesale Partners Program in your region.

An updated version of this report is attached for your review in an effort to ensure Direct Accounts in your region are "earning" their payout. You can refer to the initial correspondence sent to you September 15 for examples of situations that may typically cause a Direct Account to track at an inflated rate.

Feel free to contact me with any questions or comments you may have regarding this information.

Julie Knabb (ext. 7754)
